for the  
LIBRARIAN / L R C

**Oxford is building dynamic digital encyclopedias covering over 20 different subject areas and will be continuously updated by the world's leading scholars, scientists, and researchers. With expert editors and peer-reviews, the ORE Project will combine the discoverability of digital with the standards of academic publishing.**

Each Oxford Research Encyclopedia will launch with between 200 and 400 articles (equivalent to 2-4 million words, or a print encyclopedia with 5-11 volumes). They address both foundational and cutting-edge ideas, and inform your users' academic research, no matter their chosen topic or level of expertise.

ORE Disciplines available for Subscription now are listed overleaf.

Annual subscriptions provide unlimited user access throughout the school or college. Access is by IP Address only.

**FREE TRIAL:** these titles are available on **30 day FREE TRIAL**, please see overleaf to order

#### **Who is it for?**

Students (from 14 years upwards) and teachers in schools, colleges and universities.

#### **How does it work?**

A subscription allows each reader unlimited access to Oxford University Press's vast resource library across 20+ disciplines. Every article is written by Oxford validated authors and certified experts in their field, and updated on an ongoing basis to ensure relevance of source material.

#### **What type of research do the Oxford Research Encyclopedia provide?**

In depth overviews that summarize all critical aspects of a topic in a format that can be easily digested in 30 minutes or less.

#### **What make the Oxford Research Encyclopedia an essential research tool?**

With the creation of the OREs, the reference program has moved away from simply collecting facts and is now into the business of providing insight, interpretation, and expert guidance. The new encyclopedia model is about going beyond facts to provide the insight that only a leading expert on the topic can deliver.

#### **What are the Oxford Research Encyclopedia benefits for end users?**

- User-Friendly & Accessible - Our online platform makes qualified research easier than ever.
- Authoritative Resources All Disciplines in One Place - ORE provides cross-reference material in dozens of fields of study.
- All ORE articles are written by certified experts of the topic.
- Community Engagement - Join an engaged community of authors, scholars and students working to push reference forward.
- Oxford Validated - All articles have been vetted and approved by editors at Oxford University Press.
- Reference articles are monitored by experts to ensure fresh and timely updates reflect new insights.
