WORLD BOOK

Online Encyclopedia for Schools

The ultimate online reference resource for teachers and students of all ages includes every article from the 22 volume print set

World Book Online includes every article from the 22 volume print set; 800 videos, animations and sounds; 9500 pictures and maps; editor approved websites; and much much more at a highly competitive price

This online encyclopedia has been specifically developed for school use. Unlike many others, it is produced in both International English and American editions. A specialist British team has completely re-edited the International edition making it far more relevant to British pupils. National Curriculum correlation tables provide direct links to relevant articles, making World Book Online an extremely useful resource for both teachers and students at a highly competitive price.

World Book is the world's leading Encyclopedia for educational use and has come top of the encyclopedia ratings for schools for over 15 years. Ideal for all age ranges and levels of ability:

- World Book Student Edition for secondary students - 2 levels ideal for mixed ability classes
- World Book Advanced for upper secondary and college students through to adults

Also included is *World Book Dictionary*, *World Book Atlas*, *Spanish Encyclopedia*, an extensive multimedia collection, thousands of editor-selected Web sites, thousands of articles by World Book's renowned contributors and editorial staff, 40,000+ encyclopaedia and reference articles, thousands of links selected by World Book editors and expert contributors, historical features, educator tools, student activities, and much more. Continually updated, this is a student's best source for accurate and accessible information.

- National Curriculum: correlation tables provide direct links to relevant articles
- Accurate: 3700 contributors ensure expertise and accuracy
- Safe and relevant: Provides a safe learning environment and relevant search results
- Accessible: Available to readers, students and staff 24 hours a day at school and from home
- **Up to 34% updated each year:** updates applied to online version monthly

Key features of the Advanced level of World Book Web include:

- 270,000 primary source documents
- 25,000 encyclopedia articles
- 5,500 e-books
- 10,000 images
- Create media-rich timelines in key curriculum areas
- Access thousands of primary source documents
- Find accurate, authenticated articles on any topic
- Search a library of up-to-date periodicals
- Save sessions with 'My Research' (allows users to save information to use at a later date – information stored on World Book site not Library site)
- Double click any word in an article and get the dictionary definition
- And much more
